

JT-V3Z ROUND CAR BOTTOM SAFETY INSPECTION MIRROR

USER'S MANUAL

JT-V3Z is a very popular installation-free under-vehicle safety inspection mirror newly launched by our company. It is a 30cm lightweight convex mirror and a high-power high-brightness LED multi-function flashlight. Economical and portable, simple and clear, the unique rotating shaft and locking device ensure flexible rotation and smooth operation of the telescopic arm. After use, it can be completely retracted into the handle for easy carrying and storage; it is mainly used for personnel surveying the scene. A powerful tool for inspection of observing blind spots. Such as: the bottom of the cart, the bottom of the mine, the bottom of the table, the bottom of the industrial machinery, etc.

1. Product specifications

Mirror: 30 cm diameter acrylic high-strength shatter-proof mirror; convex 2 times magnification effect, 1/2 the weight of ordinary glass mirrors of the same size, with certain toughness, not easy to break, safe and durable, and brightness the same as glass mirrors. The lacquered iron chassis clamp-in fully enclosed round mirror can effectively prevent damage to the environment caused by collision. **Grip:** non-slip super long retractable straight handle rod, the maximum stretch is 107cm, and the shortest stretch is 51cm, which can reach the detected vehicle and objects to the maximum extent. Using high-quality anti-corrosion and continuous stainless structure and multiple high-strength processing, it is strong and beautiful. **Light source:** High-brightness LED multi-function flashlight, installed close to the edge of the inspection mirror, ensuring that it can be used normally in a dark environment, greatly improving the lighting efficiency, this flashlight can also be used for lighting, and it can also be used as a mobile phone to charge Treasure use (this function can only be realized by using solar charging models)

Wheels: 1.5-inch double-bearing wear-resistant universal wheels

Installation: no need to assemble, unpacking can be used

Weight: total weight 2.5kg, product weight 1.8kg

Packing: Shatter-resistant foam + outer carton (1 box per box) + storage bag

Outer box packing: 570*360*165mm

Storage size: 570*310*130mm
